Skills

Frontend : HTML5, CSS3, JavaScript (ES6+), DOM, Responsive Design, UI/UX

Libraries & Frameworks : Bootstrap, Tailwind CSS, React.

Tools & Platforms : Vs Code, Git & GitHub, WordPress, Canva, Figma.

Programming Languages (Basics): Python, Java, PHP.

Certifications

- HTML – Coursera (2024)
- Frontend-development – Udemy(2024)
- UI/UX – Udemy(2025)

Languages

- English, Hindi, Tamil(Native)

Projects :

Vibe Stream - Music Web Application (HTML, CSS, Bootstrap)

- **Led a 4-member development team** to design and build *Vibe Stream*, a modern music-streaming web application using cutting-edge front-end technologies.
- **Directed project planning, workflow structuring, and GitHub-based task allocation**, resulting in a **50% increase in team productivity** and achieving **five consecutive on-time project milestones**.
- **Designed responsive and user-centric UI/UX** using **HTML, CSS, and Bootstrap**, significantly improving user interaction and enhancing overall engagement through intuitive layouts.
- **Git Link** : <https://github.com/yusufchota/Vibe-Stream-Music.git>
- **Live URL** : <https://yusufchota.github.io/Vibe-Stream-Music/>

Rock Paper Scissors Game (HTML, CSS, JavaScript)

- **Developed a fully interactive Rock-Paper-Scissors web game**, featuring multiple modes (**First to 5, First to 3, and Single Round**) to provide varied gameplay experiences.
- **Integrated live scoreboard tracking and real-time move comparison** (player vs computer), delivering dynamic feedback and smooth user engagement throughout each round.
- **Built using HTML5, CSS3, and modern ES6+ JavaScript**, demonstrating responsive UI design, clean modular game logic, and maintainable code architecture suitable for future feature upgrades.
- **Git Link** : <https://github.com/yusufchota/Rock-paper-scissors-game.git>
- **Live URL** : <https://yusufchota.github.io/Rock-paper-scissors-game/>

Portfolio (HTML, CSS, Tailwind Css, JavaScript)

- **Created a modern, dark-themed portfolio** with clean UI/UX, leveraging **HTML, CSS, Bootstrap, and Tailwind CSS**, and emphasized visual hierarchy using **orange accent highlights** for a polished aesthetic.
- **Engineered a fully responsive design** optimized for **mobile, tablet, and desktop**, with well-structured sections (Home, About, Skills, Projects, Contact) to showcase navigation flow and front-end development depth.
- **Showcased strong technical proficiency** in **React, JavaScript ES6+, UI/UX (Figma), WordPress**, and featured hands-on projects (YouTube Clone, Music Player, Rock-Paper-Scissors) in a layout tailored for **recruiter-friendly review**.
- **Git Link** : <https://github.com/yusufchota/Portfolio-new.git>
- **Live URL** : <https://yusufchota.github.io/Portfolio-new/>

Shipzo-Logistics (React-js, Tailwind Css, Motion(Animations))

- Built a fully responsive multi-section logistics landing page using **React, Tailwind CSS, and React Router**, ensuring seamless navigation and optimized performance across devices.
- Implemented interactive components such as **tracking sections, service cards, schedules, and a dynamic header**, improving overall user experience and engagement.
- Configured Vite for fast development and optimized production builds, including **GitHub Pages deployment setup**, environment-based routing, and clean project architecture.
- **Git Link** : <https://github.com/yusufchota/React-Project-Shipzo-Logistics.git>
- **Live URL** : <https://yusufchota.github.io/React-Project-Shipzo-Logistics/>

Additional Projects

- Calculator App • QR Code Generator • Users Data Fetching App • Login/Signup Form • Responsive UI Layouts • Weather UI
